# Keys to Running an Audit-Ready IT Shop

A healthsystemCIO Media Inc. Production

Sponsored by Tausight & Censinet

Housekeeping

- Moderator
  - Anthony Guerra, Founder/Editor-in-Chief, healthsystemCIO

- Audience Participation
 - Questions & Comments Welcome - Q&A Box

Agenda

- 35 minutes: Panel Discussion

- 10 minutes: Audience Q&A

Aaron Weismann, CISO, Maine Line Health

Rob Marti, VP of Solution Engineering/Field CTO, Tausight

Chris Logan, SVP/Chief Security Officer, Censinet

Anthony Guerra, Founder/Editor-in-Chief, healthsystemCIO

Question

- Please give us an overview of your organization and role.

Aaron Weismann, CISO, Maine Line Health

Rob Marti, VP of Solution Engineering/Field CTO, Tausight

Chris Logan, SVP/Chief Security Officer, Censinet

Anthony Guerra, Founder/Editor-in-Chief, healthsystemCIO

Question

- How would you describe the state of oversight around health system IT security?
    - What entities might demand to review your processes, policies and past performance?
    - How might that process start and what might they be looking at/for?

Aaron Weismann, CISO, Maine Line Health

Rob Marti, VP of Solution Engineering/Field CTO, Tausight

Chris Logan, SVP/Chief Security Officer, Censinet

Anthony Guerra, Founder/Editor-in-Chief, healthsystemCIO
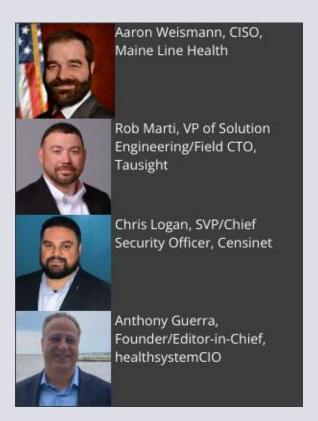

CENSINET®

Question

- What are some characteristics of an IT security program that would have little reason for anxiety if it received a letter of impending oversight?
  - What are the trickiest areas around compliance? Are there some areas where there is some daylight between the regulatory expectations and the realities on the ground?
  - Let's talk specifically about third-party risk and ePHI when it comes to potential audits. What would auditors be looking for in this area?

Aaron Weismann, CISO, Maine Line Health

Rob Marti, VP of Solution Engineering/Field CTO, Tausight

Chris Logan, SVP/Chief Security Officer, Censinet

Anthony Guerra, Founder/Editor-in-Chief, healthsystemCIO

Question

- Is there a difference between being in compliance versus being able to demonstrate compliance?
    - Talk about the difference between being able to demonstrate compliance with ease versus with difficulty.
    - How can being in a position to only demonstrate compliance with difficulty put an organization in a vulnerable position? Does IT security risk go up when the IT security team is focused on addressing or complying with an audit?

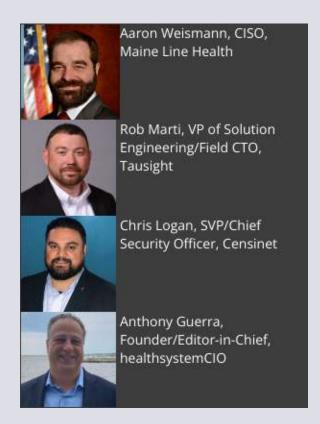

Aaron Weismann, CISO, Maine Line Health

Rob Marti, VP of Solution Engineering/Field CTO, Tausight

Chris Logan, SVP/Chief Security Officer, Censinet

Anthony Guerra, Founder/Editor-in-Chief, healthsystemCIO
